Highlight Facilities, Infrastructure of Pre-Incubation & Incubation kind and Student bodies/clubs engaged in promotion of Innovation and Entrepreneurship in the campus.

Pre-incubation is the process that usually involves a technology-focused business idea or project, where start-ups that have started working alone or with a team but have not been incorporated to make this idea come true. Entrepreneurs in the pre-incubation process need specific training, mentoring and consultancy services to understand whether their ideas are viable, commercializable, scalable, etc.

Pre-incubation centres provide these opportunities to early-stage entrepreneurs for an average of six months to a year. In addition to these, the physical facilities needed by entrepreneurs such as open offices and common working areas are provided to entrepreneurs by pre-incubation centres.

At the end of the pre-incubation period, entrepreneurs who complete the business plan and are ready for incorporation, start the incubation phase. During the incubation period, entrepreneurs continue to need physical facilities and training, consultancy and mentoring services, similar to the pre-incubation phases.

The facilities of pre incubation centre are:

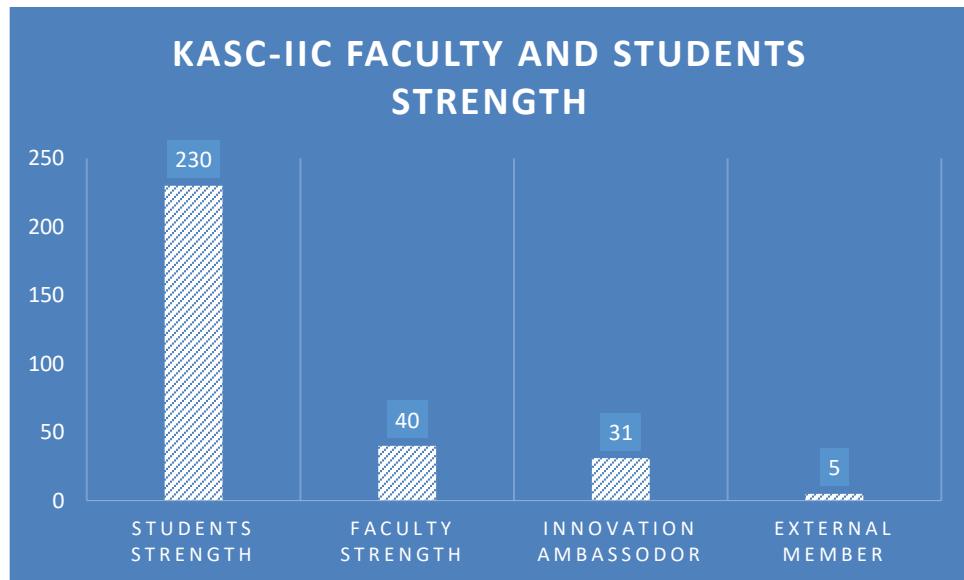

- Giving awareness
- Conducting completions
- Organizing programs for the entrepreneurs
- Discussion and mentoring

After evaluating the ideas from students the prospective ideas are diverted to incubation centre of our parent Institution in Kongu TBI. The students will get the mentoring support, funding support and further assistance to go for stat ups.

E. Highlight Achievements (Narrative/Graphical/Tabular representation)

No. of student's & faculty Innovation/prototypes developed

Number and Different types of I&E and IPR activities Conducted	No. of student's & faculty ideas generated	No. of student's & faculty Innovation/prototypes developed	No. of IPs generated published and granted by Faculty	No. of Student & Faculty Start-ups/ Ventures established . Subject: Approval of Collaboration for Student Upskilling Initiative

The Department of Education, Government of Karnataka, is pleased to acknowledge and appreciate the commendable work done by IKTARA Edu in the field of professional and technical upskilling under your able leadership and zeal. In line with our commitment to enhancing the skill sets of students across the state, we are delighted to **approve a collaboration between the Education Department and IKTARA Edu** to provide high-quality and affordable upskilling courses to students beginning from the academic year 2025-2026, starting in mid-April 2025 under the programme “UNNAT”.

This collaboration will extend its benefits to **more than 350 schools, 68 colleges, and a student base exceeding 2,45,000 across Karnataka**. The programme will focus on equipping students with essential skills in the fields of **Artificial Intelligence, Digital Marketing, Communication, Entrepreneurship, Tally, MS Office, Cloud Computing, and several other relevant domains** that align with industry demands and future job markets.

Under this collaboration, we anticipate a structured framework that ensures:

- Seamless integration of courses into the academic curriculum.
- Affordable access to high-quality training and certification.
- Industry-relevant learning modules to enhance employability and career readiness.
- Regular assessment and progress tracking of enrolled students.

We look forward to working closely with your esteemed organization to finalize the implementation modalities, course structure, and execution framework for a successful rollout of this initiative in our **next review meeting on 08.03.2025**.

We appreciate your commitment to fostering skill development among students and look forward to a fruitful collaboration that significantly contributes to the academic and professional growth of our youth.

(Srikanth M.S)

B. Testimonials from IIC members and external about IIC institute and IIC of MoE's Innovation Cell

Testimonial

The IIC at KASC is specifically noted for its role in fostering an innovation and entrepreneurship ecosystem. KASC-IIC's objective is to "encourage, inspire and nurture young students by supporting them to work with new ideas. It provides a platform for students to explore and apply their skills through workshops, mentorship and resources. It aims to transform ideas into tangible outcomes and prepare students for real-world challenges. The IIC is an active body that conducts various events, including "Start-up- Innovative ideas" contests, workshops, and participation in events like the Smart India Hackathon. I strongly recommend IIC to every young entrepreneur with an innovative idea, as the KASC-IIC Pre-Incubation Centre is dedicated to transforming abstract dreams into concrete realities.

Dr. G. Karthi,

Assistant Professor,

Department of Management Science,
Kongu Arts and Science College (Autonomous),
Erode, Tamil Nadu.

Testimonial

KASC-IIC Pre- Incubation Centre is providing tremendous support to develop the entrepreneurial culture among our students. The council has provided us with a vibrant platform to nurture creativity, explore entrepreneurial opportunities, and develop innovative solutions to real-world problems. The workshops, mentoring sessions, and innovation-focused activities organized by the IIC have not only enhanced our knowledge but also built our confidence to think beyond boundaries. The institution's commitment to fostering innovation and entrepreneurship has created an ecosystem where ideas are valued, collaboration is encouraged, and students are motivated to become future-ready leaders. IIC has empowered us to convert challenges into opportunities and given us the exposure needed to compete in today's dynamic world. I am proud to be associated with an IIC Institution that truly believes in cultivating innovation and driving positive change in society
